WEB DEVELOPER

Highly skilled and motivated Software Developer with 3 year of experience in designing and developing robust & responsive web applications. Strong expertise in frontend development, JavaScript, Angular, React js, TypeScript, JQuery, HTML, SCSS & CSS. Demonstrated ability to collaborate with cross-functional teams, effectively communicate technical concepts, and deliver projects within deadlines. Seeking an opportunity to contribute my expertise and passion for coding to a dynamic and innovative team.

PROFESSIONAL EXPERIENCE

Sparkle Software Solutions (A KGK Group Company)

Angular Developer

2022- Present

1. Diamond Inventory System

An ERP tool for managing inventory, sales, accounting and reporting for diamonds and precious stones. The tool also integrates other vertical like sales and rental of real estate

Responsibility:

- Developing the code as per the requirements.
- Interaction with the client to understand the requirement.
- Engage in requirement specification process for new software functionality.
- Ensure design consistency with client's development standards & guidelines.
- Enhanced legacy application by building new standalone components in Angular 17.
- Used various Angular custom directives & developed reusable components & templates that can be re-used at various places in the application.
- Created Typescript reusable components & services to consume REST API's using Component-based architecture provided by Angular.
- Implemented HTTP requests using RXJS Observable library.

Environment:

Angular 9/Angular 17, SCSS, NgRX, Material Ui, Web API

2. KGKCC

Web developer

2021-2022

This application is developed to buy & sell Diamonds and ColorStone online. It aims to provide a user-friendly interface, robust functionality, and a secure environment for E-commerce functionality.

Responsibility:

- Developed website using HTML, CSS, Javascript, JQuery
- Implemented responsive design and cross browser compatibility.
- Provide ongoing maintenance and support to clients.
- Implemented best practices javascript codebase, develop new functionality and create new layouts.

Environment:

Javascript, JQuery, HTML, CSS, Bootstrap 4, ES6, NodeJS
